

WHITEOAK DECLARATION OF CONFORMITY

Manufacturer's Product Safety and Compliance Declaration under Regulation (EU) 2023/988

Document number	WO-GPSR-BB100-01	Date of issue	1 January 2026
Place of issue	Wrocław, Poland	Revision	01

1. Manufacturer

WhiteOak Sport Equipment Jakub Kozłowski
Jerzmanowska 107
54-530 Wrocław
Poland
Website: whiteoak.com.pl

2. Product identification

Product name	WhiteOak Balance Beam
SKU	BB100
GTIN / EAN	5905427359029
Nominal size	100 cm length; 50 mm beam diameter

3. Product description and intended use

A freestanding balance beam made primarily of solid beech wood, intended for balance, stability, foot-strength and mobility exercises. The product is designed for use on a stable floor in home, studio, physiotherapy and training environments.

- Balance and stability exercises
- Foot and ankle mobility and strengthening exercises
- Controlled barefoot or footwear-based movement practice

4. Declaration

The manufacturer declares under its sole responsibility that the product identified above has been designed and manufactured so that, when used for its intended purpose and in accordance with the supplied instructions and warnings, it complies with the general safety requirement and the applicable manufacturer obligations of Regulation (EU) 2023/988 on general product safety.

5. Basis of the declaration

- Product specification and construction review
- Internal assessment of foreseeable stability, fall and mechanical hazards
- Static load testing by the manufacturer
- Functional and visual inspection procedures
- User instructions and safety warnings

6. Essential safety conditions

- Place the beam on a level, dry, clean and non-slip surface.
- Maintain a clear area around the product and use support or supervision when balance ability is limited.
- Step onto and off the beam in a controlled manner; do not jump onto the product.
- Inspect the beam and supports before every use. Do not use if cracked, loose, unstable or otherwise damaged.
- The product has been internally load-tested up to 400 kg; this test value is not an instruction to perform dynamic impacts or use the product for lifting.
- The product is not a toy, medical diagnostic device, personal protective equipment or fall-arrest equipment.

7. Regulatory status

This is a voluntary manufacturer's product-safety and compliance declaration. It is not an EU Declaration of Conformity issued under CE-marking legislation. Based on the product's intended function as a non-electrical training accessory, no CE mark is affixed under this declaration. Where the product is combined with third-party equipment, each third-party component remains subject to its own applicable requirements and documentation.

8. Technical documentation and validity

The manufacturer retains product identification, construction information, internal risk assessment, test or inspection records, user-safety information and traceability records for the period required by Regulation (EU) 2023/988. This declaration remains valid only for an unmodified product used in accordance with the manufacturer's instructions. Unauthorised modification, misuse or use of incompatible accessories may invalidate this declaration.
