

WHITEOAK DECLARATION OF CONFORMITY

Manufacturer's Product Safety and Compliance Declaration under Regulation (EU) 2023/988

Document number	WO-GPSR-SL20-01	Date of issue	1 January 2026
Place of issue	Wrocław, Poland	Revision	01

1. Manufacturer

WhiteOak Sport Equipment Jakub Kozłowski
Jerzmanowska 107
54-530 Wrocław
Poland
Website: whiteoak.com.pl

2. Product identification

Product name	WhiteOak Slant Board - 20°
SKU	Slant_20_X1
GTIN / EAN	5905427359111
Set configuration	One piece
Working surface	approximately 25 x 32 cm

3. Product description and intended use

A single inclined training platform with a 20-degree working angle, intended for mobility, stretching, squat and controlled rehabilitation-style exercises. The working surface is designed to provide grip during normal intended use.

- Calf, ankle and lower-limb mobility exercises
- Stretching exercises
- Squat and strength-training variations performed with controlled technique

4. Declaration

The manufacturer declares under its sole responsibility that the product identified above has been designed and manufactured so that, when used for its intended purpose and in accordance with the supplied instructions and warnings, it complies with the general safety requirement and the applicable manufacturer obligations of Regulation (EU) 2023/988 on general product safety.

5. Basis of the declaration

- Product specification and construction review
- Internal assessment of foreseeable slip, fall, overload and mechanical hazards
- Static load and functional testing by the manufacturer
- Inspection of working surface and structural connections
- User instructions and safety warnings

6. Essential safety conditions

- Use only on a level, dry, clean and non-slip surface.
- Ensure that the product is correctly oriented and fully supported before stepping onto it.
- Begin with low-intensity exercises and use external support where balance or mobility is limited.
- Do not use the product for jumping, impact training or as a step for access to elevated areas.
- Inspect the structure and anti-slip surface before each use. Do not use if damaged, loose, excessively worn or contaminated.
- The product line has been internally tested up to 400 kg per pair; this document covers one 20-degree unit and does not authorise impact loading.

7. Regulatory status

This is a voluntary manufacturer's product-safety and compliance declaration. It is not an EU Declaration of Conformity issued under CE-marking legislation. Based on the product's intended function as a non-electrical training accessory, no CE mark is affixed under this declaration. Where the product is combined with third-party equipment, each third-party component remains subject to its own applicable requirements and documentation.

8. Technical documentation and validity

The manufacturer retains product identification, construction information, internal risk assessment, test or inspection records, user-safety information and traceability records for the period required by Regulation (EU) 2023/988. This declaration remains valid only for an unmodified product used in accordance with the manufacturer's instructions. Unauthorised modification, misuse or use of incompatible accessories may invalidate this declaration.
