

WHITEOAK DECLARATION OF CONFORMITY

Manufacturer's Product Safety and Compliance Declaration under Regulation (EU) 2023/988

Document number	WO-GPSR-WR-01	Date of issue	1 January 2026
Place of issue	Wrocław, Poland	Revision	01

1. Manufacturer

WhiteOak Sport Equipment Jakub Kozłowski
Jerzmanowska 107
54-530 Wrocław
Poland
Website: whiteoak.com.pl

2. Product identification

Product name	WhiteOak Wrist Roller
GTIN / EAN	5905427359487
Nominal dimensions	approximately 50 x 7 x 7 cm
Product type	Wooden forearm training roller

3. Product description and intended use

A manually operated wooden wrist roller with cord, intended for progressive forearm, grip and shoulder training by winding and unwinding a suspended training load.

- Forearm flexor and extensor training
- Grip-strength training
- Controlled shoulder and arm endurance exercises

4. Declaration

The manufacturer declares under its sole responsibility that the product identified above has been designed and manufactured so that, when used for its intended purpose and in accordance with the supplied instructions and warnings, it complies with the general safety requirement and the applicable manufacturer obligations of Regulation (EU) 2023/988 on general product safety.

5. Basis of the declaration

- Product specification and construction review
- Internal assessment of foreseeable falling-load, cord, grip and overuse hazards
- Functional testing under controlled training loads
- Manufacturer inspection and quality-control procedures
- User instructions and safety warnings

6. Essential safety conditions

- Use only in an unobstructed area and keep feet and other persons away from the suspended load.
- Attach only secure training loads and connectors. Confirm that the cord, knot and attachment point are undamaged before use.
- Raise and lower the load slowly; do not swing, drop or jerk the load.
- The maximum intended suspended training load is 50 kg, provided that all attached components are also suitable for that load.
- Stop use immediately if the cord shows abrasion, cuts, fraying or other deterioration.
- The product is not a lifting device for persons or goods, personal protective equipment, fall-arrest equipment or a toy.

7. Regulatory status

This is a voluntary manufacturer's product-safety and compliance declaration. It is not an EU Declaration of Conformity issued under CE-marking legislation. Based on the product's intended function as a non-electrical training accessory, no CE mark is affixed under this declaration. Where the product is combined with third-party equipment, each third-party component remains subject to its own applicable requirements and documentation.

8. Technical documentation and validity

The manufacturer retains product identification, construction information, internal risk assessment, test or inspection records, user-safety information and traceability records for the period required by Regulation (EU) 2023/988. This declaration remains valid only for an unmodified product used in accordance with the manufacturer's instructions. Unauthorised modification, misuse or use of incompatible accessories may invalidate this declaration.
